

Schweiger Private Brewery – A family brewery since 1934

The history of Schweiger Private Brewery begins with Ludwig Schweiger, its founder, who was born in Markt Schwaben in 1896, the second son of the miller of Hanselmühle water mill.

In 1934, while watching a brewer at work, he discovered his enthusiasm for brewing. He spontaneously decided to buy the brew kettle from Wimmer Brewery in Altenerding so he could brew his own beer. His enthusiasm became a passion, and a successful craft brewery developed from his first hectolitre of beer.

Today, Schweiger Private Brewery is one of Bavaria's most traditional, family-run private breweries, with customers around the world, a wide range of beers and non-alcoholic specialities, its own deep well with mineral water quality and its own malthouse. Now, as then, our customers' and guests' satisfaction, tradition and quality are our top priorities.
